

CHINA

4 Outcome

One important objective of creating UPR mechanism is to eliminate such problems as double standards, selectivity, and politicization arising out of the consideration of country resolutions in the Commission on Human Rights. Therefore, the Council must make sure that outcome of the ~~review~~ ^{concerned} will not lead to the repetition of these problems. ^{account} We believe discussions should be recorded in an objective manner, ~~preferably in the form of summary record.~~ ^{should avoid} ^{Outcomes should reflect on decision in an objectively manner}

5 Follow up

The next review can be used by the Council as the opportunity to follow up on the issues raised in the previous review. Technical assistance may be provided at the request of the country concerned with a view to enhancing its capacity.

To avoid duplicat, - Not focus on follow up
strengthen follow up mechanism
